Business Activity Monitoring

Be in Charge of Your Business! Monitor Your Processes!

Albia® Business Activity Monitoring

Introduction

With Albia® BAM it is possible to monitor multiple systems and business processes, and to always know what is happening in your business, which problems are likely to occur, while getting updates and alerts automatically when something goes or about to go wrong.

When dealing with high volume transactions, complicated business processes, mission critical systems, real-time production, or simply businesses which profits highly depend on correct execution and error-free environment - Albia® provides Business Activity Monitoring (BAM) solutions that can make your business highly competitive and allow monitoring and predicting your business problems.

Albia® provides a broad range of business and technology services that deliver real business results. With headquarters in Sarajevo (Bosnia and Herzegovina) Albia® covers many private and public sectors in different countries by bringing innovative and agile solutions delivered by top consultants through our specially designed agile consulting methodology.
